Working in Central Asia
Teaching and Training the next generation for Gospel Ministry

Post-trip news MAY 2017

Dear family & friends,

The mountains were as spectacular as ever, the welcome sincere and special and the students eager to learn and grow. Please see the photo-page attached.

In the 4th Module of the Almaty Satellite Bible School we studied the Wisdom books of the Old Testament.

The OT Wisdom Books teach that the Creator God has made the world with an in-built discernible order. Wisdom beckons us to accept this order with humility. As we do so in repentance and belief we enter into new life with Christ. In step with God we can live life at its best. The sin and rebellion which has distorted God's good order will confuse and complicate this life but we can still grow in godliness and serve God with joy and forward purpose.

Once again I teamed up with a local minister. Teaching the Scriptures and having enormous fun at the same time is a special treat! The Philippians phrase 'partnership in the Gospel' was the vibrant and real experience. The key church in Almaty understands that sustained expository Bible teaching is God's appointed way of growing the people of God in godliness and for gospel outreach.

This was a hugely worthwhile teaching trip. I feel that new ground is being broken and that cutting edge gospel work is taking place. Your support and partnership is highly significant. Thank you for the gifts, prayers and words of encouragement.

I will be teaching the new students at the Kazan Mission College in September for two weeks – An Introduction to the OT & NT. In October I will return to Almaty for a NT Module. It is intended that this will span the 31st October with the 500th Anniversary of the Reformation giving the opportunity to teach and re-inforce reformation truths.

Your friend and fellow worker,
Graham
